ABOUT THE COLLEGE

In the year 1946, a dedicated group of philanthropists and freedom fighters established the National Education Society ® (N.E.S.). It was the collective vision of these individuals that transformed the quality of education in the region. Today, the NES is known as a formidable achiever in the field of education, managing 39 educational institutions in various fields—Engineering, Pharmacy, Arts, Commerce, Education, Law, Applied Sciences, Management, and etc. In the year 1980, JNNCE was established by National Education Society ®. The college has more than three decades of fruitful existence. The College is approved by Government of Karnataka and AICTE; affiliated to Visvesvaraya Technological University (VTU), Belgaum, Accredited by NAAC 'A' & Certified by UGC 2(f) & 12(B) and Seven UG programs are accredited by NBA.

A preferred destination of students seeking technical education, the institution offers BE degree in 10 branches namely Civil Engg., Mechanical Engg., Electrical & Electronics Engg., Electronics & Communication Engg., Computer Science & Engg., Information Science & Engg., Electronics and Telecommunication Engg., Artificial Intelligence & Machine Learning, Robotics & Artificial Intelligence, Computer Science & Engineering (Data Science), 2 PG Courses, namely, MCA and MBA, besides M.Sc. (Engg.) and Ph.D. in ten disciplines.

Spread over a sprawling campus of 39.4 acres having all amenities to cater to the needs of about 4000 students and 540 staff members, the institution is reputed for its high-caliber faculty, excellent infrastructure, academic environment and placement. Around 18000 graduates and post-graduates have so far passed out from this College and have been making significant contributions in academic institutions, industry R & D organizations and Government Departments in India and abroad. The institution has, in the recent past, organized several conferences.

ABOUT THE DEPARTMENT

The department of Information Science and Engineering established in the year 1999 with an objective of producing high-qualified Professionals in the field of Information Science and Engineering. The department started with intake of 40 students and intake was enhanced to 60 in the year 2001,120 seats in the year 2007 and 180 seats in the year 2022.

Department of Information Science & Engineering has 23 teaching faculty members with various specializations in computer science, out of which nine are Ph.D. holders and nine are pursuing Ph.D. The faculty has been publishing research papers in refereed journals and in conference proceedings. Some of our faculties are involved in institutional level activities.

The Department has state-of-the-art infrastructure and computing equipment. The department faculties encourage students to take up MOOC based online courses in NPTEL and Coursera. The co-curricular & extra-curricular activities bring out the best in student and many of them have represented the university and won awards. The department handles Campus networking of the institution.

DEPARTMENT'S VISION

To be recognized as a centre of excellence in the field of Information Science and Engineering for education, research and entrepreneurial skills with a vision of building creative and dynamic IT professionals to meet global challenges.

DEPARTMENT'S MISSION

Impart quality education, training and competence in information science domain through best-in class faculty and facilities.

Inspire a zest into students for open discussions, debates and sharing ideas in the department.

Inculcating the students to pursue career in higher studies and research.

ABOUT THE EVENT

HackYugma and Yugma TechFest 1.0, organized by the Department of Information Science and Engineering, aim to foster innovation, collaboration, and technical excellence. The flagship 24-hour Hackathon, HackYugma, challenges participants to develop impactful solutions under pressure, encouraging creativity, teamwork, and endurance. Yugma TechFest features a range of dynamic events like Code Blitz, Hiring Challenge, Ideathon, UI/UX Design Sprint, and Tech Treasure Hunt—each designed to sharpen technical, analytical, and problem-solving skills while offering a platform to showcase talent.

EVENTS ORGANISED UNDER

1.24-Hour Hackathon

A team-based, overnight innovation challenge where participants work on real-world themes and build working solutions. It promotes collaboration, endurance, and problem-solving under time constraints.

2.Hiring Challenge

An immersive event that mirrors real-world hiring processes in the tech domain. Participants will go through an aptitude test, technical challenge, and a mock interview designed to test technical, analytical, and communication skills.

3.Ideathon

Participants pitch innovative solutions to real-world problems through presentations, mock-ups, or prototypes. This event promotes creativity, feasibility, and impactful thinking.

4.UI/UX Design Sprint

A design-focused event where participants craft user-friendly and intuitive interfaces based on provided scenarios. It emphasizes innovation, usability, and aesthetic presentation.

5.Tech Treasure Hunt

A tech-themed treasure hunt where participants follow clues, solve riddles, and decode tech-related hints to reach the final goal. It's a perfect mix of fun, logic, and teamwork.

6.Code Blitz

A two-stage coding event where participants first face logical puzzles and MCQs, followed by a hands-on coding round. The challenge tests accuracy, efficiency, and coding logic under pressure.
